

WIRTGEN W 210 Fi

ID	FRBF641
Category	Cold Milling Machine
Manufacturer	WIRTGEN
Model	W 210 Fi
Year of manufacture	2019
Operating hours	3,218 h
Weight	28.3 t
Milling width	2,000 mm
Milling depth	0 – 330

Description

- 4-chain drive
- Milling width 2,000 mm
- Milling depth 0 – 330 mm
- Milling drum FB2000 HT22 LA18 MCS-Basic
- MCS Multiple Cutting System quick-change system for milling drums
- Water spray bar FB2000, electrically switchable
- Milling drum housing MCS Basic FB2000
- Hydr. side plate MCS Basic FB2000
- HT22 quick-change system
- FCS Flexible Cutter System
- Active floating position edge protection
- Curb protection rollers for edge protection
- VCS – vacuum/dust extraction system
- Milling drum rotation device for tool change
- Pneumatic tool extractor
- Hydraulically foldable discharge conveyor 850×7300 mm
- Adjustable discharge conveyor speed
- LEVEL PRO automatic leveling system
- Additional 4.3" and 7" leveling panel
- Preparation for laser/3D leveling
- Traffic light system
- Electronic cross-slope sensor
- Milling depth sensing ahead of the drum, left and right
- Camera system with 8x
- CATERPILLAR C18 diesel engine, 6-cylinder
- EU Stage V / US EPA Tier 4f
- Weather protection roof, foldable
- Operator's platform heating
- 2 comfort operator's seats
- Hydraulically driven water filling pump
- Additional weight
- XXL storage compartment at the rear
